NAVIGATION STRUCTURE

What type of navigation structure(s) will you use to allow for maximum user interactivity?

Critical Path Open Architecture

Critical Objective	Closed Architecture
Explain how multiple navigational structure	s might be used within the same interactive project:
ZAPIGITI TION THANKPIO HAVIGATIONAL OLI GOLGIO	o migni do dood minim mo camo mioracavo projecti
You're designing the box for your title. Explai	n how a user is able to navigate through your project:
You're designing the box for your title. Explai	n how a user is able to navigate through your project:
You're designing the box for your title. Explai	n how a user is able to navigate through your project:
You're designing the box for your title. Explai	n how a user is able to navigate through your project:
You're designing the box for your title. Explai	n how a user is able to navigate through your project:
You're designing the box for your title. Explai	n how a user is able to navigate through your project:
You're designing the box for your title. Explain	n how a user is able to navigate through your project:
You're designing the box for your title. Explain	n how a user is able to navigate through your project:
You're designing the box for your title. Explain	n how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
You're designing the box for your title. Explain	in how a user is able to navigate through your project:
